

Based in Somerset, West Carpentry Contractors are a company with extensive experience in Carpentry on both housing developments and commercial projects.

We are a well established carpentry contracting company with over 15 years experience in all sectors of the industry. Our past projects range from schools to care homes, small bespoke developments to large-scale residential and commercial developments.

Our company has co-operated across the UK on many large projects and with organizations including D R Jones, Andrew Wilson Partnership, Mendip Homes, Mulberry Construction and many others.

We are professional and reliable tradesmen who have many years of experience in the trade, enabling us to provide a truly first class solution to your carpentry requirements. We strive to ensure quality work at realistic costs.

We specialise in all types of carpentry, from timber framed buildings, all aspects of roofing to kitchen design and fitting. We are also qualified to provide structural carpentry to the intricacies of specialist wood working in our customers period homes and listed buildings, along with first and second fix carpentry.
